

Z-Wave SDK 7.18.3.0 GA

Gecko SDK Suite 4.2

May 3, 2023

Z-Ware is an engineering UI enabling control of all Z-Wave features supported by the Z/IP Gateway.

Z-Ware v7.18.3 is released in conjunction with Z/IP Gateway, Z-Wave and Z-Wave Long Range 700/800 SDK v7.19.0 Pre-Certified.

Notice: Z-Ware will be deprecated in 23Q4

These release notes cover Z-Ware version:

7.18.3.0 GA released May 3, 2023

KEY FEATURES

- Various bug fixes

Compliance

- This version has been tested on RPi3B+ as the primary hardware platform.

Compatibility and Use Notices

This release was tested with ZIPGW SDK 7.18.3 and software device emulator. See section [7.2 Compatibility](#) for a detailed list of compatible browsers and devices.

For more information about security updates and notices, see the Security chapter of the Gecko Platform Release notes installed with this SDK or on the [Silicon Labs Release Notes page](#). Silicon Labs also strongly recommends that you subscribe to Security Advisories for up-to-date information. For instructions see section [7.3 Security Information](#).

7 About This Release

7.1 SDK Contents

7.1.1 Component Versions

| Component | Version |
|------------|---------|
| Web server | 7.18.3 |
| C Library | 11.2.7 |
| PyZWare | 1.00 |

7.1.2 Documents

| Document | Name |
|--------------------------------|-----------------|
| Web User Guide | INS14428 |
| Web Server Installer Guide | INS14486 |
| Web Developer's Guide | INS14430 |
| Library User Guide | INS14606 |
| Library C API Reference Manual | INS14416 |
| Z-Ware Doxygen | zware_dox.zip |
| PyZWare Doxygen | pyzware_dox.zip |

7.1.3 Images

| Platform | Files |
|----------------------------------|-------------------------------|
| RPi3B+ with Raspbian 9 (stretch) | zware-7.18.3-B2-rpi.tar.gz |
| Ubuntu Mate 18.04.5 32 bit | zware-7.18.3-B2-i386.tar.gz |
| Ubuntu 18.04.5 LTS 64 bit | zware-7.18.3-B2-x86_64.tar.gz |

7.1.4 Source

| File | Description |
|-----------------|---|
| zware.tar.gz | Web Server & pages. Library is found in src/zwave/hcapi |
| pyzware_src.zip | PyZWare python source |

7.2 Compatibility

7.2.1 Tested Web Browsers

| Web Browser | Version |
|-------------|---|
| Chrome | Version 96.0.4664.45 (Official Build) (64 bit) – Windows 10 |
| Firefox | Version 94.0.2 (64 bit) – Windows 10 |

7.2.2 Compatible Devices

The following is a list of devices that are known to work with previous versions of Z-Wave.

8.1 Disclaimer

Silicon Labs intends to provide customers with the latest, accurate, and in-depth documentation of all peripherals and modules available for system and software implementers using or intending to use the Silicon Labs products. Characterization data, available modules and peripherals, memory sizes and memory addresses refer to each specific device, and “Typical” parameters provided can and do vary in different applications. Application examples described herein are for illustrative purposes only. Silicon Labs reserves the right to make changes without further notice to the product information, specifications, and descriptions herein, and does not give warranties as to the accuracy or completeness of the included information. Without prior notification, Silicon Labs may update product firmware during the manufacturing process for security or reliability reasons. Such changes will not alter the specifications or the performance of the product. Silicon Labs shall have no liability for the consequences of use of the information supplied in this document. This document does not imply or expressly grant any license to design or fabricate any integrated circuits. The products are not designed or authorized to be used within any FDA Class III devices, applications for which FDA premarket approval is required or Life Support Systems without the specific written consent of Silicon Labs. A “Life Support System” is any product or system intended to support or sustain life and/or health, which, if it fails, can be reasonably expected to result in significant personal injury or death. Silicon Labs products are not designed or authorized for military applications. Silicon Labs products shall under no circumstances be used in weapons of mass destruction including (but not limited to) nuclear, biological or chemical weapons, or missiles capable of delivering such weapons. Silicon Labs disclaims all express and implied warranties and shall not be responsible or liable for any injuries or damages related to use of a Silicon Labs product in such unauthorized applications. **Note: This content may contain offensive terminology that is now obsolete. Silicon Labs is replacing these terms with inclusive language wherever possible. For more information, visit www.silabs.com/about-us/inclusive-lexicon-project**
